

About Us

The Ocean Group provides good quality, energy efficient and affordable homes to over 4000 families in Cornwall.

We are committed to providing a real contribution to Cornwall's housing shortage and build new homes for rent and shared ownership.

Since we were established in 2000 we have invested approximately £200 million in the county. At Ocean we believe affordable housing is not just about the buildings, but about the people who turn them into homes. We therefore provide a wide range of services to our residents, helping them to make the most of their homes and the communities they live in.

Ocean Housing Group Ltd is a non profit making, registered social landlord, and parent company for:

Ocean Housing Ltd - a community-based social business that provides homes and services to help local people build strong and united neighbourhoods.

It is a non-profit making organisation, which has charitable status. Ocean Housing Ltd was formed in February 2000 with the aim of improving homes and services for our tenants, creating new homes and supporting communities.

We have properties to rent and homes to part buy and part rent. We also have garages available for rent. We are continually trying to increase the number of homes available by building more properties across the county.

Ocean Services Ltd - a private company that provides a top quality property maintenance and repair service for Ocean and other social landlords and local authorities.

Gilbert & Goode Ltd - one of the largest Cornish construction companies in the region, delivering a range of contracts from major projects and refurbishment, to minor works and maintenance. Gilbert & Goode works in many areas of both the private and public sectors, including commercial, leisure, health, education, social housing, historic refurbishment and social housing.

Ocean Housing Group is a Company Limited by Guarantee in England and Wales, Registration No. 05000720. .
